## Performance Work Statement

Contract EP-C-07-018                      Work Assignment Number 1-10, Amendment 1

Issuing Office                                Environmental Protection Agency  
2000 Traverwood Drive  
Ann Arbor, MI 48105-2498

Contractor                                    Southwest Research Institute  
6220 Culebra Rd.  
San Antonio, TX 78228-0510

Title    Additional Fuels and Testing for Coordinating  
Research Council (CRC) in the Comprehensive  
Gasoline Light Duty Exhaust Fuel Effects Test  
Program

LOE Estimate:                                **Ex. 4 - CBI**

Work Assignment 1-10 “Additional Fuels and Testing for Coordinating Research Council (CRC) in the Comprehensive Gasoline Light Duty Exhaust Fuel Effects Test Program”, shall be amended to include testing the two fuels obtained in this work assignment on the same ten vehicles which are being tested in WA 1-03. The lubricants schedule (Task 4), vehicle preparation (Task 5), testing protocol (Task 6.1), fuel change and test execution sequence (Task 6.1.1), speciation of volatile organic compounds (Task 6.2), continuous measurements of gaseous emissions in raw exhaust (Task 6.3), deliverables and reporting (Task 7) shall be performed for these two additional fuels as in WA 1-03. The testing of these fuels from this work assignment shall be added to the randomized matrix as discussed in Task 6.1 of WA 1-03.

All testing done under this work assignment shall conform to the QAPP which has been updated for WA 1-03.

### Schedule of Deliverables

Steps	Completion Date
Project work plan submission	Within 15 calendar days of receipt of WA
Emissions Testing	February 19, 2009
Data Delivery	Same schedule as WA 1-03

Work Assignment Manager (WAM)

Rafal Sobotowski, ASD 734/214-4228
